## How to Update Medicare Benefits Schedule Fees

In line with the July 2020 Medicare Benefits Schedule Fees Update on July 1, 2020 - please follow the steps below to update your SUNIX Vision system with the new fees:

### To Update the Medicare Benefits Schedule Fees (used when submitting claims)

1. Update Vision to the latest version, see the [Manual for Updating SUNIX Vision](#).
2. Open SUNIX Vision and a pop up box will show up as shown in the image below:

If you click Yes (recommended), the price update will take about a minute then a dialog box will show up saying that the fee has been updated:

3. Click **OK**.

4. If you click on “Ask me Later” you will be asked again after re-opening SUNIX Vision.

**Note:** Items **10905 -10948** are the list of items that will be updated.

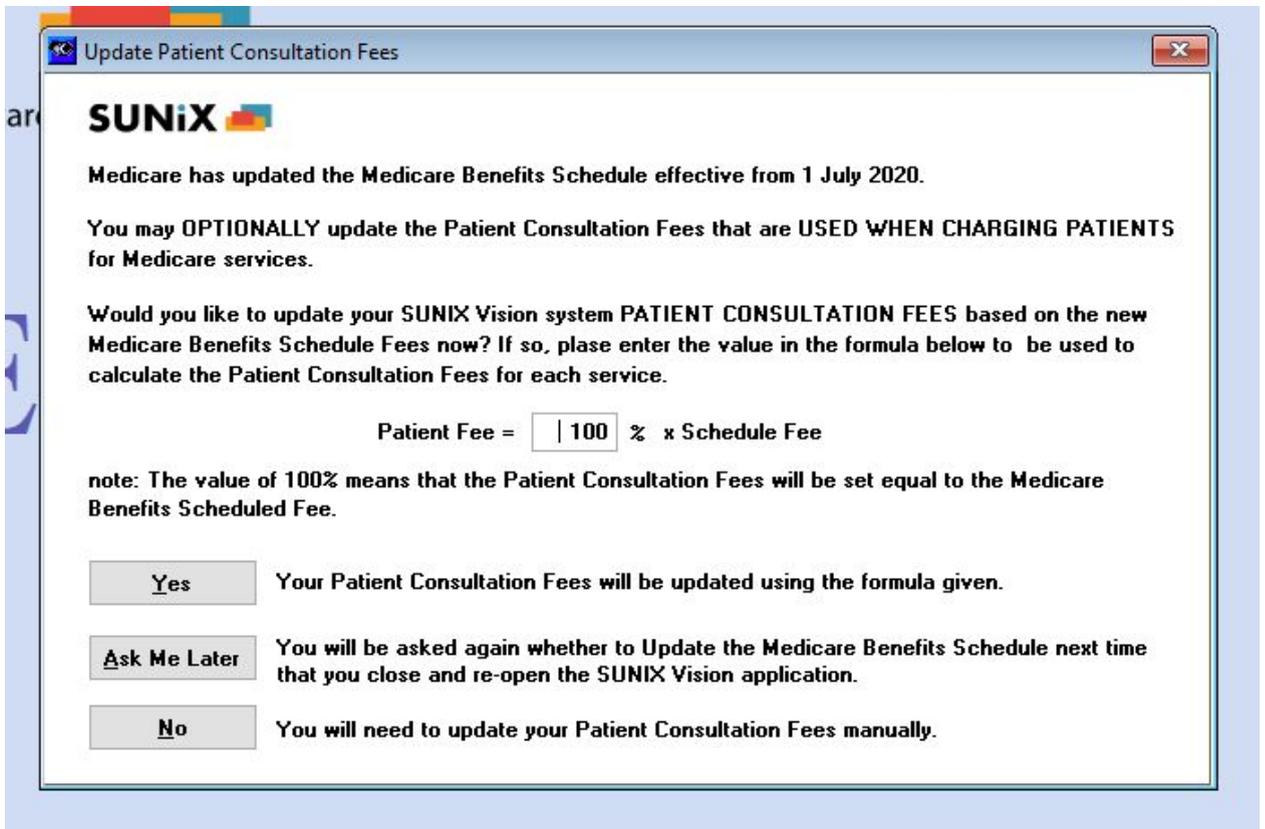

To check Click on Maintenance > Item No Details > Click on List and check if the prices has been updated for the Item Numbers mentioned.

**WARNING:** If you do not update the Medicare Benefits Schedule Fees then Medicare claims made for consultations occurring on or after 1 July 2020 may be incorrect.

## To Update the Medicare Patient Consultation Fee (used when billing patients)

1. After doing the Medicare Consultation Fee update, another pop up box will appear as shown in the image below:

If you click on “**Yes**” (Highly Recommended) enter the percentage, “**Ask me Later**” or “**No**” if you want to update the patient consultation fee manually.

2. If you click Yes, the price update will take about a minute then a dialog box will show up saying that the fee has been updated:

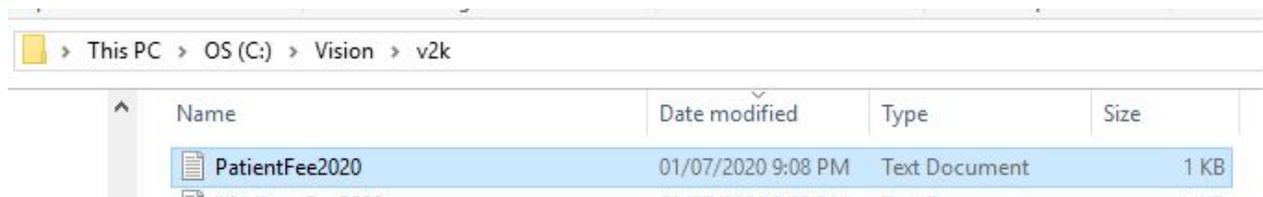

3. If you click on “Ask me Later” you will be asked again the next time you open the Sunix Vision application.

**NOTE:** Medicare and Patient Fee updates can be done on any computer, and other computer(s) do not need to log out from using Sunix for the update.

**ADVANCED NOTE:**

*(WARNING: This operation should only ever be undertaken by a skilled user)*

1. If you clicked on “No” and subsequently wish to update the medicare Patient Consultation fees, please close SUNIX Vision in all computers, then go to your v2k folder and delete **PatientFee2020.txt**.

2. Once the file has been deleted, re-open SUNIX Vision and follow the steps on updating the patient fee.
